Why me?

I've learned a lot on Lynda.com.

And I've done this work on the engineering side before:

lynda.com wins

- Huge library with thousands of courses.
- Extremely high production quality.
- Instruction available in the latest technologies.
- Courses are comprehensive and progressive.

lynda.com[®] challenges

- Fierce competition, especially for programming courses.
- High quality **free resources** are available elsewhere.
- Video courses and subtitles are **only available in English**, which limits a global audience.

Global lynda.com®

- Translate subtitles for the most popular courses in each language.
- Introduce non-English subtitles in four phases.
- Allow users to switch language preference.
- Potential later project: Reproduce popular courses using local native speakers.
